Scientists have discovered new ways in which the body regulates blood clots, in a discovery which could one day lead to the development of better treatments that could help prevent and treat conditions including heart diseases, stroke and vascular dementia. The long-term degree of the economic sustainability of social services, in particular health and education services, could be strengthened over time starting with an overall, justly distributed increase in income achieved through more incisive fiscal policies - something almost entirely nonexistent in most countries today - and the recognition by national governments that service expansion must be a priority.

### **Kingdom Eternal**

For, as I take it, to lie is to affirm that to be true which is false; so as the other artists, and especially the historian, affirming many things, can, in the cloudy knowledge of mankind, hardly escape from many lies. Uldall, Hans.
