## **The wise bird**

In the seventeenth century, celestial mechanics gave philosophers a certain picture of a way the world might be: it might be a world whose future states were entirely determined by the past and the laws of nature of which Newton's laws of motion and law of universal gravitation served as paradigms. Reel Around The Sun from Riverdance.

## **Safe Haven**

The campus novel was from its beginnings, and in the hands of later exponents like Alison Lurie and Malcolm Bradbury, an essentially comic subgenre, in which serious moral issues are treated in a "light and bright and sparkling" manner to borrow the phrase applied to *Pride and Prejudice* by Jane Austen, who would certainly have written a campus novel or two if she had lived in our era.
